Fund Manager Commentary:

Last month was a huge one for the UAE markets. Dubai jumped 11%, while Abu Dhabi also came in strong with a 7.3% gain. The UAE-China partnership fired up the real estate stocks. Emaar signed an MoU with a Chinese company for a real estate project in Beijing, with a value of USD 11bn. The joint development of a Business and Tourism Complex at Daxing International Airport is a stepping stone into the Chinese real estate market. The company has been expanding its presence in the country over the past few years in an attempt to attract Chinese investors to buy properties within Dubai.

Aldar won a AED 5bn in Abu Dhabi government contracts. This includes an AED 2bn contract to complete Saddiyat Island infrastructure, AED 2bn contract for development of villas at 'Al Falah' – a master community developed for UAE nationals and AED 1bn in contract for development of twofour 54 campus (a media and entertainment hub) on Yas Island. The company upped the gross profit guidance for 2019 by 50%. Stock has done very well, rising 50% since its low in Feb of this year, but we still see decent upside.

Emirates NBD received the approvals from the UAE central bank and Turkey's banking regulator to acquire Denizbank. On completion of the transaction, the bank's CET 1 ratio will decline below 14% which although would be well above the minimum requirement of 11%, the lender would go for a rights issue in order to preserve its credit rating. The change in the FOL (foreign ownership limit) could be affected before the capital increase.

DP World acquired 100% of Topaz Energy - a marine logistics and solutions provider to the global energy industry where the company operates a fleet of 117 vessels with operations mostly in the Caspian Sea. The acquisition is in line with DP World's strategy to grow presence in marine logistics. Topaz generated FY18 revenues and EBITDA of USD 350mn and USD 190mn and has a contract backlog of USD 1.6bn. This values the target at an attractive 5.7x EV/EBITDA multiple.
